

Give it a Try...

Remember when you first learned to ride a bike? Maybe you tried and tried and almost gave up. But you kept at it. What seemed almost impossible eventually became quite simple. If you had never tried, you would have missed out.

Tithing is like that. It is humanly understandable that we want to satisfy our own wants and pay our bills first, and then give whatever is left over to God. But God invites us to try a different approach to our giving:

“Bring the full tithe into the storehouse and put me to the test says the Lord of hosts; see if I will not open the windows of heaven for you and pour down an overflowing blessing for you.” (Malachi 3:8-12),

He invites us to TRY. To TRY is to make an attempt. Some people TRY in earnest, they give it their all. Others TRY only half-heartedly – assuming failure from the start.

Take a risk.

Yeah? but what if it doesn't work? Nothing ventured, nothing gained! What have you got to lose! Try a tithe for just one Sunday. Calculate your income in an average week, multiply it by ten percent and give that amount in the Sunday offering plate. Try a Tithe.
