

How to Slice a Banana

1. Take a banana in one hand and a knife in the other (Be careful not to cut yourself.)

2. Cut off the proportion you have decided to give to the church — it could be a tithe (ten percent) or any other proportion of your income.

3. Now look at the banana. How much is left? Ninety percent or more?

Isn't it possible to carefully manage that amount of money to cover all the rest of your expenses?

Of course, it is! A lot of people do — people who thought they couldn't, but tried — rich people and poor people and people with moderate incomes — people who all have one thing in common: they slice the banana for the church first!

Try a Tithe...you'll be surprised at how easy and rewarding it is.
